

FAI C €

Feature

- · Width only 52.5mm (3SU)
- 4:1 ultra wide input range
- -40~+85°C wide working temperature
- No minimum load required
- DC output adjustable ($\pm 10\%$)
- Cooling by free air convection
- · Can be installed on DIN rail TS-35/7.5 or 15
- Protections: Short circuit / Overload / Over voltage / Input reverse polarity / Input under voltage protection
- 4KVdc I/O isolation(Reinforced isolation)
- 3 years warranty

Applications

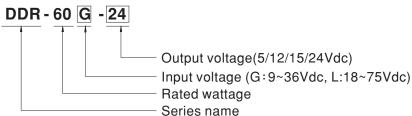

- · Industrial control system
- Semi-conductor fabrication equipment
- Factory automation
- · Electro-mechanical
- · Wireless network
- · Telecom or datacom system

Description

DDR-60 series is a 60W DIN Rail type DC-DC converter with main features including DIN rail-type easy installation, ultra slim width (52.5mm), 4:1 ultra wide input voltage, $-40^{+}85^{\circ}C$ wide operating temperature, 4KVdc I/O isolation, adjustable output voltage (\pm 10%) and full protective functions...etc.

This series has two input options: $9\sim36V/18\sim75V$ and various output options: 5V/12V/15V/24V and can be used for industrial control, security control, communication system and other fields. Suitable applications are DC buck/boost regulator, increasing system insulation level and voltage drop compensation along cable...etc.
